Certification of Saratoga

In our continuing effort to certify the low delivery Saratoga, we have sent for the analyses of FTC tars on 20 Marlboro Monitor and 20 low delivery Saratoga cigarettes. These samples have been sent to Foster D. Snell.

Because of the low values obtained on the Marlboro Monitor at U. S. Testing, we have sent them three additional samples for analyses of TPM and nicotine. These cigarettes are low delivery Saratoga, Marlboro Monitor and P. M. Commander.
